To whom it may concern,

Morgan Constructors did an outstanding job on my roof. I have a large house with several levels of roof. I couldn't believe they were in and out in one day using more than 2 pallets of shingles.

As a former business man I could appreciate how hard and professional his employees were. As a matter of fact the whole operation was very professional. They did a good job cleaning up and the salesmen <sup>CAME</sup> the next day to make sure we were satisfied. I would recommend them to my friends.
