Dear L.E. Morgan Construction

Recently, we hired your organization to remove and replace the roof on our home and detached garage. Please accept this letter of appreciation and gratitude

With every step in the process, L.E. Morgan Construction was responsive, fair, and produced high quality.

Our first interaction with you was with the estimate, which was provided in a timely fashion. Although you did not provide the lowest bid, we still chose to go with L.E. Morgan Construction because of your professionalism and our belief that the quality of your craftsmanship would justify the higher cost. We were right.

The work began quickly and stayed within the estimated two day timeframe. The crew was always hard at work and respectful to our family when we overlapped. Even when the actual cost came in a little higher than the estimate, the overage was explained in a manner that we understood.

Finally, at the end of the project, we were informed that the dumpster needed to stay overnight at our home. When we asked permission to throw away some scrap wood in the dumpster, we were pleased to hear that your organization was willing to accommodate.

We had a wonderful experience with L.E. Morgan Construction and would certainly suggest that home owners seek your services in the future.

Thank you and best of luck with your future business opportunities

Sincerely,

Dan and Elisha Willis
